Extra Fee

Installation:

This section outlines the steps to install the Extra Fee plugin for the first time.

Note: [MAGENTO] refers to the root folder where Magento is installed.

1. Download the SWT - Extra Fee plugin -Available as a .zip or

   tar.gz file.

      -Unzip the file.

2. Create /SWT/Extrafee directories inside /app/code directory of your Magento installation

3. Open Command Line Interface and go to magento-2 root directory and run following commands

4. In CLI, run the Magento setup upgrade:

      php bin/magento setup:upgrade

5. In CLI, run the Magento Dependencies Injection Compile:

      php bin/magento setup:di:compile

6. In CLI, run the Magento Static Content deployment:

      php bin/magento setup:static-content:deploy

7. Login to Magento Admin and navigate to System/Cache Management.

8. Flush the cache.
