Previous Next Product Page Navigation

Introduction

Previous Next Product Page Navigation extension helps customers to navigate previous or next products within the same category conveniently.

Customers may quickly examine their prior product pages and switch back and forth between products they've previously visited on your product page, which is helpful for them.

Customers may move directly to the previous or next product without having to navigate to the category page, which saves them a significant amount of time.

How to Configure:

Login to Admin:

Admin ➔ Stores ➔ Configuration

Under the SWT ➔ Next/Previous Product ➔ Previous Next Product

Configuration

Enable – You can enable/disable extension

Sort Product Position – You can sort product follow position config in category by Ascending/Descending.

Show Product Image – Show Product Image when hover next and previous arrow.

Please see the below extension configuration image.

Frontend Product Page

In product detail page you can see Previous Next product arrow and easily view previous and next product.
