

Product Attachments

Introduction

Magento 2 Product Attachments extension allows admin to upload various file attachments and make site pages more informative and share detailed descriptions.

Add additional attachment files to enrich the content of your website & provide the customers with more detailed information.

This extension is helpful for providing accurate product documents, manuals, licenses, warranties and other information on website product pages.

This extension provides options for uploading DOCs, PDF, XLS or any other file type and adding custom icons to make them look more attractive.

How to Configure:

Login to Admin:

Admin → Stores → Configuration

Under the SWT → Product Attachment → Configuration

Enable – You can enable/disable extension

Product Attachment Title – You can add product attachment title.

Product Attachment Sort Order – Set sort order for product attachment.

Please see the below extension configuration image.
