

# Restrict Products By Customer Group

## Introduction

Restrict Products By Customer Group Helpful extension for Magento 2 store owners to restrict access to particular products to the selected customer groups.

Admin is allowed to configure store products restriction page redirection to any specific page.

## How to Configure:

Login to Admin:

Admin → Stores → Configuration

Under the SWT → Hide Products by Customer Group → Configuration

You can see the configuration Option

**Enabled** - You can enable/disable extension

**Hide Product Redirect to Specific Page** – You can select the page which you need to redirect when products are restricted from customer group by store owner in admin.

Please see the below extension configuration image.

The screenshot shows the 'Configuration' page in Magento Admin, specifically the 'Extension Configuration' section. On the left, a sidebar menu lists 'GENERAL', 'CATALOG', 'CUSTOMERS', 'SALES', 'SWT', and 'Hide Product By Customer Group' (which is highlighted with a red box). The main content area shows the configuration for 'Hide Product By Customer Group'. It includes a 'Enabled' dropdown set to 'Enable' and a 'Hide Product Redirect To Specific Page' dropdown set to '404 Not Found'.

Then Go to the Product page whichever you want to hide and select the customer group to whom you want to hide from Hide Product by Customer Group dropdown options.

The screenshot shows the product configuration page for 'Mast & Harbour'. The page includes various configuration options: 'Stock Status' (In Stock), 'Weight' (1 lbs), 'Categories' (Watches, Shoes, Sunglasses, Fashion), 'Visibility' (Catalog, Search), and 'Set Product as New From' (with date pickers). A red box highlights the 'Hide Product For Customer Group' dropdown menu, which is open and shows options: 'NOT LOGGED IN', 'General', 'Wholesale', and 'Retailer'. A red arrow points to the 'Wholesale' option with the text 'Select Customer Group for hide product'.

After that product is hidden with specific customer group from website and it will be redirect to restriction page selected in admin extension configuration.
