Cart rules for autogenerate coupons [store view] (dropdown menu)
Select cart rule to generate coupon codes

Custom coupon static block [store view] (dropdown menu)
Select cms block (use {{coupon}} to display coupon code in content block)

General:

Show default success block – Select No to disable default success block.

Show default registration block – Select No to disable default registration block in success page.

Custom Static Block:

Show custom static block – Select yes to display your custom static block on the success page instead of the default one.

Custom static blocks – In the dropdown list select the name of the block you wish to display on the success page.

Cross sell Block:

Select yes to display the block with cross-sell products on the success page.

Coupons:

Show coupons – Enable this option if you wish to offer customers a special deal or discount.

Cart rules for autogenerate coupons – Select the type of the rule that will automatically generate coupons for your customers.

Custom coupon static block – Select the type of the coupon static block from dropdown to be displayed on the success page.

How to Customized Static Blocks:

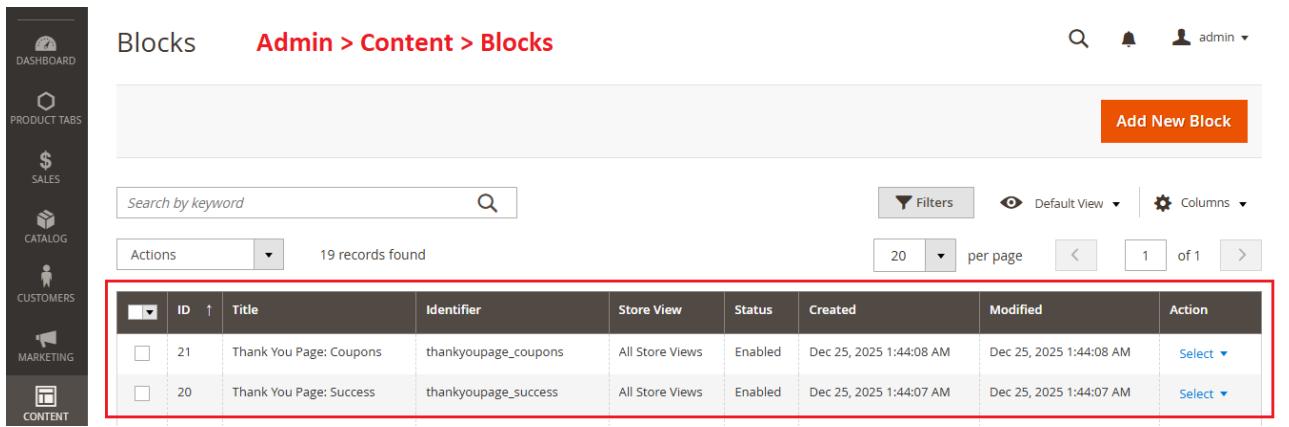

The Thank You Page module comes with two predefined static blocks:

- Thank You Page: Success
- Thank You Page: Coupons.

You are able to customize and edit these default static blocks or create new ones.

To customize a predefined block, switch to the Content → Blocks section.

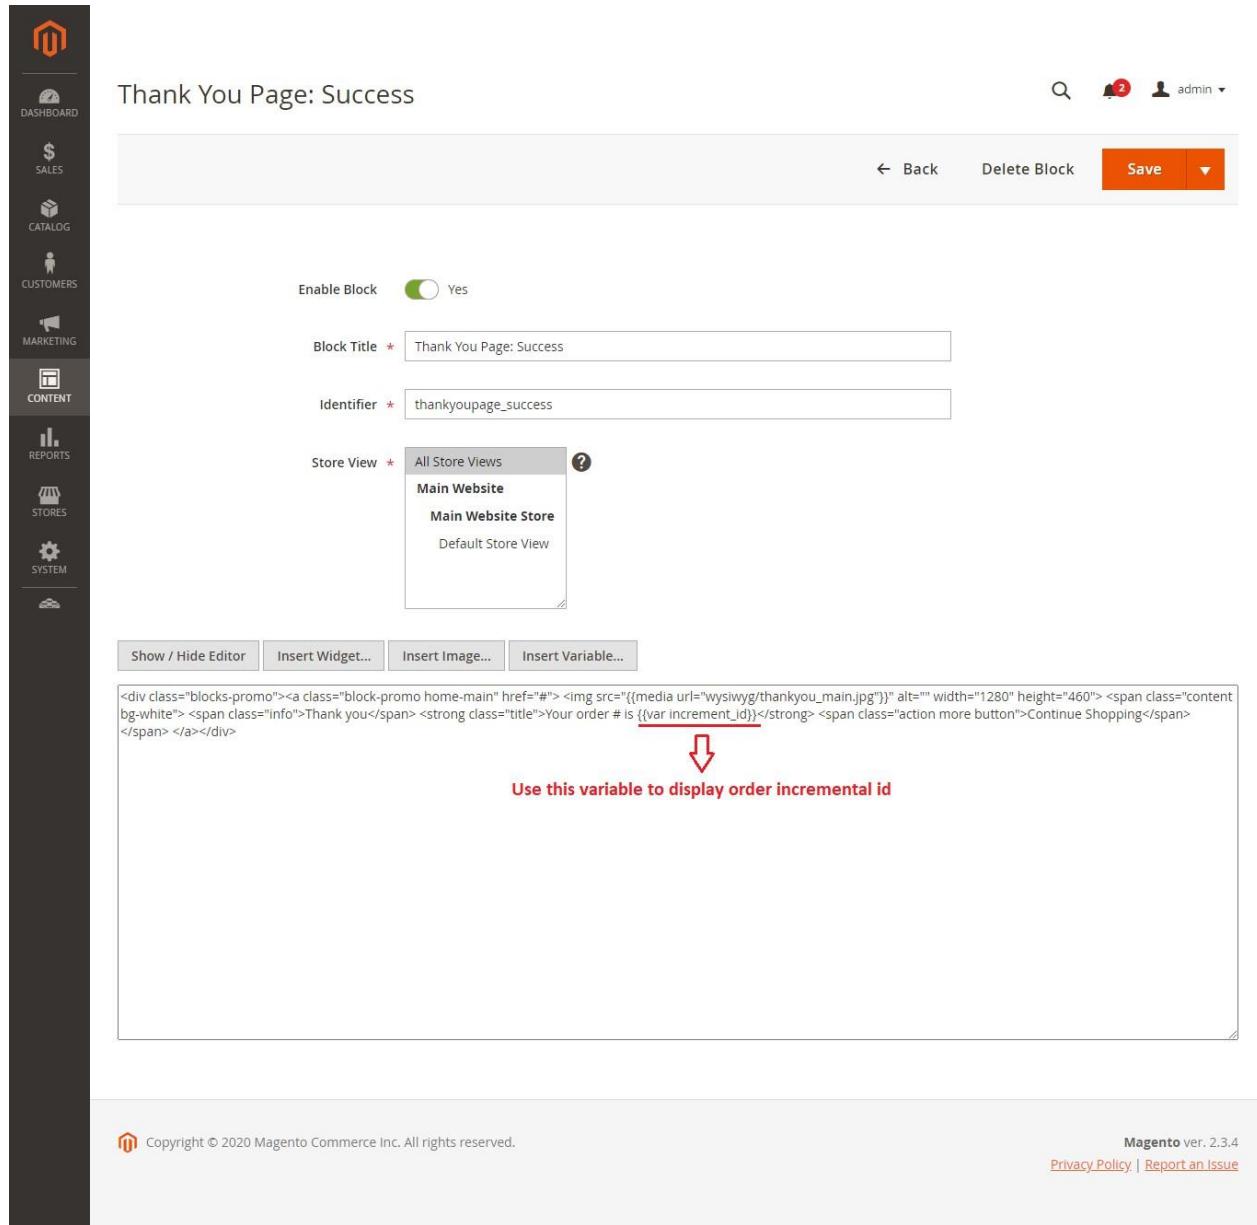

In the list of your static blocks you will find the newly added blocks Thank You Page: Success and Thank You Page: Coupons

The screenshot shows the 'Blocks' page in the Magento 2 Admin. The left sidebar has links for Dashboard, Product Tabs, Sales, Catalog, Customers, Marketing, and Content. The main area has a header 'Admin > Content > Blocks' with a search bar, a 'Add New Block' button, and filters. Below is a table with two rows:

	ID	Title	Identifier	Store View	Status	Created	Modified	Action
<input type="checkbox"/>	21	Thank You Page: Coupons	thankyoupage_coupons	All Store Views	Enabled	Dec 25, 2025 1:44:08 AM	Dec 25, 2025 1:44:08 AM	Select
<input type="checkbox"/>	20	Thank You Page: Success	thankyoupage_success	All Store Views	Enabled	Dec 25, 2025 1:44:07 AM	Dec 25, 2025 1:44:07 AM	Select

There you will also find the {{var increment_id}} variable which stands for the order ID number.

Thank You Page: Success

Enable Block Yes

Block Title *

Store View *

Show / Hide Editor

```
<div class="blocks-promo"><a class="block-promo home-main" href="#"> <span class="content bg-white"><span class="info">Thank you</span> <strong class="title">Your order # is {{var increment_id}}

Use this variable to display order incremental id

Copyright © 2020 Magento Commerce Inc. All rights reserved. Magento ver. 2.3.4 Privacy Policy | Report an Issue

```

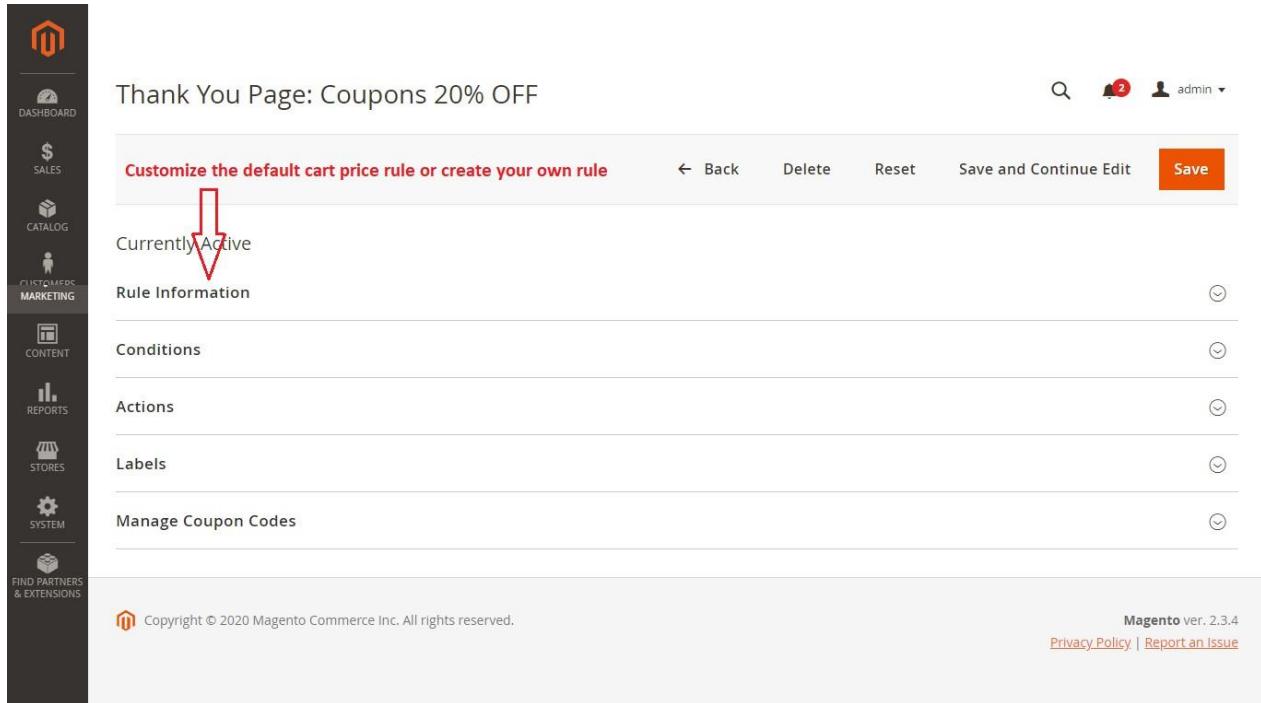

When editing the Thank You Page: Success block you need to place the {{var increment_id}} variable in any place on the page where you wish to display the order ID.

The Thank You Page: Coupons block uses the {{var code}} variable to display the discount code.

Put the variable in any place on the page where you wish to display the special discount code for your customers. Add any additional text or media to make the page more customer-friendly.

How to Customize Shopping Cart Price Rule:

Cart price rule is created automatically. In order to change it navigates to Marketing → Cart Price Rules and select Thank You Page: Coupons 20% OFF.

The screenshot shows the Magento Admin Panel with the following details:

- Left Sidebar:** Shows navigation links for Dashboard, Sales, Catalog, Customers, Marketing (highlighted), Content, Reports, Stores, System, and Find Partners & Extensions.
- Page Title:** Thank You Page: Coupons 20% OFF
- Header:** Includes a search icon, a notifications icon with 2 notifications, a user icon for 'admin', and a 'Save' button.
- Main Content:** A red box highlights the 'Customize the default cart price rule or create your own rule' section. A red arrow points to the 'Currently Active' status indicator.
- Form Fields:** Rule Information, Conditions, Actions, Labels, and Manage Coupon Codes, each with a dropdown arrow icon.
- Page Bottom:** Copyright © 2020 Magento Commerce Inc. All rights reserved. and Magento ver. 2.3.4. Links for Privacy Policy and Report an Issue.

In the Cart Price Rules section you can create your own Cart Price Rules as well.

That is all! Once you are done with the settings, click Save and go to the frontend to see how your success page looks like.
